

TIP OF THE MONTH - Enable or disable tracking of vehicles January 2015

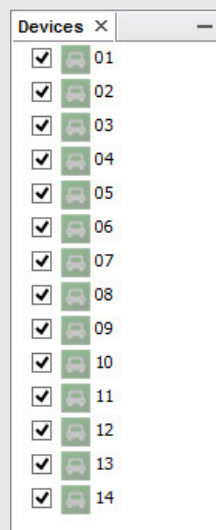

In the past year we returned two icons in the toolbar to enable or disable tracking of vehicles.

Function comes in handy for all major companies, which want to load history of more than one vehicle, while reducing the burden of the program GpsWin-a

1. If we want to enable tracking for all vehicles we click on the icon .

2. However, if we want to disable tracking of vehicles, we do so by clicking on the icon .
